Katy's doing it again!! - Toilet Twinning this Christmas

Christmas is becoming too commercialised, and thinking about being an Eco Church, I want to focus on being mindful of the environment. Instead of sending Christmas cards or buying gifts, **I would like to 'Twin a Toilet'** again.

I'll be going around with my Santa hat, asking you to draw a location from the hat, there are 10 countries in the draw. The location with the most votes will be where we twin our next toilet. Let's come together and help provide a much-needed toilet to another community.
